

## AN EFFECTIVE NTTI WORKSHOP SHOULD

- define goals and objectives
- combine old and new experiences
- be problem-centered
- be entertaining
- build confidence
- provide interaction/hands-on activities
- appeal to different learning styles
- present a variety of options
- develop new competencies
- leave participants with a new sense of enthusiasm and empowerment of using technology as a classroom resource

As a participant, you are encouraged to spread the Institute information and resources to at least ten colleagues in your school/district. The following section will assist you in organizing a workshop of your own.
